

Data Sheet

Power Call 77kVA Fleet

Power Call gives you emergency power generator access 24 hours a day, 365 days of the year through our nationwide network of power generator engineers and depots. We aim to have a generator on-site and running within one hour of your power failure. Our record for delivering an emergency generator is

23 minutes, providing vital power for a care home that suffered a blackout in heavy snow. We're so confident of our speed and efficiency that we guarantee you'll have generator power within three hours – or your money back.

Power Call
