Spill kits for Oil or Diesel Fuel

Each kit contains a range of absorbent materials to help in the collection and recovery of any spillages, together with a disposable bag, ties and instructions. Available in three sizes these kits are highly visible

and are perfect for when a quick response is required.

Replacement absorbent pads, booms and bags are available from stock.

An optional Drain Cover is available to prevent any spillages polluting the drainage network

50 Litre — for the collection of a maximum of 50 litres of spillage

120 Litre — for the collection of a maximum of 120 litres of spillage

Drain Cover — prevents spillages from entering and polluting the drainage network
